PROFESSIONAL SUMMARY

Results-driven Computer Engineering graduate from Taif University with practical experience in Artificial Intelligence, Computer Vision, Embedded Systems, and Back-End Development. Proven track record in architecting end-to-end technical solutions ranging from award-winning autonomous underwater robotics to operational venue platforms. Completed intensive AI training with SDAIA (in partnership with NVIDIA), Tuwaiq Academy, and the Saudi Digital Academy, covering LLMs, RAG, data engineering, data analysis, and AI-driven game development. Adept at bridging hardware architectures and robust software systems.

EDUCATION

Taif University
Bachelor of Science in Computer Engineering | Sep 2021 – Aug 2026 | GPA: 3.18 / 4.00

WORK EXPERIENCE

Rimal X Accelerator & Incubator
Business Intelligence & Technical Intern | Jun 2026 – Aug 2026
- Trained across AI, Computer Vision, IoT, Networking, Cybersecurity, Drones, and Agile Management.
- Developed technical operations and intelligent venue workflow systems to support incubation programs.
- Received official Certificate of Completion (Verification Code: RX-M-MSYVL770-BFY8).

PROFESSIONAL AI TRAINING

Saudi Data & AI Authority (SDAIA)
Sep – Oct 2026
- Professional Large Language Models (LLMs) Training Program, AI Track, in partnership with NVIDIA.
- Modern Data Engineering for AI Systems Program.
- Machine Learning Fundamentals Course.

Tuwaiq Academy
Sep – Nov 2026
- AI Bootcamp using Meta Tools.
- Data Analysis with R Programming Program.

Saudi Digital Academy (SDA)
- AI Bootcamp in Game Design & Development.

PROJECTS

Adheed – Automated Diabetes CGM Reporting
Python | Pandas, NumPy, Matplotlib, FPDF
- Built a Python pipeline that cleans and structures continuous glucose monitoring (CGM) and insulin data for 20 patient profiles and merges them with HbA1c lab results.
- Generated automated clinical-style PDF reports per patient with Ambulatory Glucose Profile (AGP) and daily glucose and insulin charts.

AquaVenture – Autonomous Underwater Vehicle (Graduation Project)
Taif University | Sep 2025 – May 2026 | 1st Place Winner
- Engineered a UUV integrating AI and Computer Vision models for real-time marine exploration and detection.
- Implemented acoustic communication protocols to transmit telemetry and sensor data for live analysis.

Rimal Flow – Smart Booking & Venue Operations System
Rimal X Accelerator & Incubator | Jun 2026 – Aug 2026
- Developed an interactive booking system with smart space mapping and automated countdown tracking.

Movement Detection & Embedded Security System
Taif University | Jan 2026 – May 2026

- Built an Arduino-based security system to detect unauthorized entry, trigger alarms, and dispatch alerts.

TEDx Okadh – Web-Based Ticket Scanning System

TEDx Okadh | Feb 2026 – May 2026

- Developed a real-time web verification tool to scan attendee tickets, prevent duplication, and speed up check-in.

TECHNICAL SKILLS

- **Programming Languages:** Python, C/C++, Java, JavaScript, SQL
- **AI & Data Science:** Computer Vision, OpenCV, Deep Learning, Machine Learning, Large Language Models (LLMs), RAG, LangChain, Data Engineering, R Programming, Business Intelligence & Analytics
- **Software & Web:** Back-End Development, HTML5/CSS3, REST APIs, Database Administration
- **Hardware & Embedded:** Arduino, Raspberry Pi, Robotics Programming, Multisim, AutoCAD, Troubleshooting
- **Tools, OS & Networks:** Git/GitHub, Docker, Linux, Windows, MATLAB, Networking Protocols, Cybersecurity Essentials

CERTIFICATIONS & TRAINING

- **NVIDIA Deep Learning Institute:** Building RAG Agents with LLMs (Sep 2026)
- **NVIDIA Deep Learning Institute:** Adding New Knowledge to LLMs (Sep 2026)
- **NVIDIA Deep Learning Institute:** Rapid Application Development with Large Language Models (LLMs) (Sep 2026)
- **ISC2 Cybersecurity Suite:** Security Principles, Operations, Application Security, Incident Response, Network Security
- **University of California, Davis (Coursera):** Principles of Secure Coding
- **IBM:** Introduction to Cybersecurity Essentials

CORE COMPETENCIES

- Problem Solving, Analytical Thinking, Team Leadership, Time Management, Public Speaking & Presentation

LANGUAGES

- **Arabic:** Native • **English:** Professional Working Proficiency
